Greetings of Peace!

Catholic Higher Educational Institutions (CHEIs) in the Philippines remain to be the critical and significant component in “transforming the minds and hearts” of the Filipinos and the Philippine society “from within” to make “them new” (cf. ECE 48). CHEIs continue to serve “the people of God ... in their pilgrimage to the transcendent goal which gives meaning to life” (ECE 13; cf. GE 2) and to hold “a common vision of dignity of the human person” (ECE 21). CHEIs are committed to building communities of human persons who are “dedicated to the search for truth” working “towards higher synthesis of knowledge, in which alone lies the possibility of satisfying that thirst for truth which is profoundly inscribed on the heart of the human person” (ECE 16) and, persons who possess the ability “to judge rightly, to hand on the cultural legacy of previous generations, to foster a sense of values, to prepare for professional life” (GE 5). CHEIs remain committed to bring the Good News of our salvation “into all the strata of humanity” and “transforming humanity from within and making” them new (cf. ECE 48).

Rooted in the Gospel demand and the Church’s calling to bring the salvific message of Christ to all the strata of human life, CHEIs are immersed in the “complexities of human society” and remain “open to the situation of the world” (GE 8) to “be an ever more effective instrument of cultural progress for individuals as well as for society” (ECE 32; cf. GE 8). CHEIs have continued to respond responsibly to the various complexities and situations of the Philippine society. An immediate reality with which CHEIs are currently immersed in are the following: the implementation of the Senior High School Program of the Enhanced Basic Education Act of 2013, the quality assurance of curricular programs and institutional operations as demanded by

global and regional standards, issues on operational viability and sustainability brought about by current educational reforms, among others....

CHEIs have taken on the responsibility to transform the society towards an educational environment that creates a balance between knowledge acquisition and values formation ... an educational environment that places an equal focus on personal achievement and social responsibility ... an educational environment that builds a Christian community that provides quality human and Christian education by teaching minds, touching hearts and transforming lives.

Therefore, the pursuit for excellence in today's fast-changing educational environment requires a team of dynamic academic managers and leaders who can see the whole picture ... who can think corporate, not just functional ... who can think strategic, not just tactical. Multi-skilled. Multi-functional. People-focused. Technologically competent. Culture-sensitive. Service-oriented. Quality Driven.

It is for this reason that the National Tertiary Education Commission of CEAP (CEAP-NTEC) is inviting you to the 1<sup>st</sup> Catholic Higher Educational Institutions (CHEI) Conference from November 20 to 21, 2014 at the St. Paul University in Manila.
